

ICUTRONIC FIT CS

Constant Current Compact – Non dimmable

Areas of application

- Suitable for downlights, spotlights and LED panels
- Suitable for indoor SELV installations
- Installation and independent mounting via Cable Clamp Kit possible

Product family benefits

- Higher quality of light thanks to low output ripple current
- High flexibility due to eight different output currents
- Small housing for flexible luminaire designs
- High efficiency
- Long lasting and high reliability
- Safety ensured by OSRAM (SELV)

Product family datasheet

Product family features

- Supply voltage: 220...240 V
- Line frequency: 50 Hz | 60 Hz
- Line voltage: 198...254 V
- According to EN 61347-1, 61347-2-13, 62384
- RI suppression according to CISPR 15
- Line harmonics according to IEC 61000-3-2
- Immunity according to IEC 61547
- Fixed output (no dimming)

Application advice

For more detailed application information and graphics please see product datasheet.

Additional product information

– Hot plug-in or secondary switching of LEDs is not permitted and may cause a very high current to the LEDs.

Ecodesign regulation information:

Intended for use with LED modules.
The forward voltage of the LED light source shall be within the defined operating window of the control gear in all operating conditions including dimming if applicable.

Separate control gear and light sources must be disposed of at certified disposal companies in accordance with Directive 2012/19/EU (WEEE) in the EU and with Waste Electrical and Electronic Equipment (WEEE) Regulations 2013 in the UK. For this purpose, collection points for recycling centres and take-back systems (CRSO) are available from retailers or private disposal companies, which accept separate control gear and light sources free of charge. In this way, raw materials are conserved and materials are recycled.
